

Distribution of Malaria Infection and Malaria-LAMP

Relation of parasite number, symptom and number of patient

Method of diagnostic and Sensitivity

Malaria-LAMP is a new tool that detects asymptomatic carrier to achieve Malaria Elimination.

EIKEN's effort towards to Malaria Elimination

Collaboration with FIND

Development of Malaria-LAMP

Loopamp™ Malaria Pan Detection Kit

Loopamp™ Malaria Pan/Pf Detection Kit

- Worldwide Distributor
⇒ HUMAN (Germany)
- Japan, China, Thai, Taiwan
⇒ EIKEN

**Malaria
LAMP
Expanding
Strategy**

P. vivax-specific LAMP Prototype kit

Evaluated by FIND

Malaria Elimination in Global

- Nikkei Asian Conference on Communicable disease
⇒ Active member of Malaria consortium
- P3 (Public-Private Partnership) package
- High sensitive diagnostics kit for detection of Asymptomatic carrier : **Malaria-LAMP**
- ⇒ Aim to
 - establish diagnostics algorithm combined with treatment
 - acquire WHO-PQ certification

To make a contribution to global malaria program,
Eiken provides Malaria-LAMP has a high performance characteristics.
